

Go Green Book Review Samples

Congratulations to our **Go Green** Book Reviewers! These students did a great job reading a book from the Go Green titles and received a nice prize for their effort. Check out their reviews on the Go Green Wall in the hallway outside the back entrance to the library. Here's a sample of some of their thoughts:

Nitish Padavala, Gr. 5: "**Going Green**" by John Elkington

"Some examples of recycling are buying items made of recycled products, trade old toys, or donate to charity instead of throwing things out."

Griffin Bean, Gr. 2: "**Our Tree Named Steve**" by Alan Zweibel

"It was funny that a tree became part of the family. We can make greener choices by not cutting down as many trees."

Ashley Duarte, Gr. 4: "**Love Your World**" by Dawn Sirett

"This book is about cool ways to recycle trash. It shows that even though it may look like worthless junk, you can do stuff with it."

Melanie Desroches, Gr. 4: "**Living Green**" by Patricia Clare

"You can stop water and land pollution by putting your trash in the right place. Recycling, reducing, and reusing are also parts of saving the earth."

Gabrielle Desroches, Gr.4: "**Recycle!**" by Gail Gibbons

"When the garbage truck comes, the trash can is emptied and that's the end of it. Or is it? This book tells people to take care of our earth and recycle their trash."
