

GO GREEN CLUB MONTHLY RECAPS

2009-2010

April Recap:

Earth Week is now over but we hope you will all do a little something to make Earth Day everyday! The students and parents alike had lots of fun celebrating the wonderful elements that make up our beautiful earth. We had a slower start than we originally planned due to rain on Wednesday but the sun and the kids came out in full swing Thursday and Friday.

Maybe you heard about the rock painting, sun prints, or salmon relay over dinner that night? Our blast from the past visitor, John Muir, created quite the stir, especially since he bore a slight resemblance to Mr. Clatworthy our traffic director. Those newspaper hats provided some nice shade and looked rather stylish too! And how much better could lunch be with the fun nature music sung by our own science teacher, Mrs.

Holder?

Of course no event could be successful without the help of our special parent volunteers. Many thanks and deep appreciation go out to Colleen Azuma, Laura Barnett, Vijay Bhaskaran, Sandy Benito, Henry Choi, John Clatworthy, Janna Dean, Kelly Enright, Nuria Gnagy, Jyothi Kaki, Sandra Kirkley, Becky Kragen, Beth Lyon, Diane Martel, Deb McElroy, Kerry Moore, Heidi Morse, Mannie Nimmo, Marianne O'Farrell, Colleen Olson, Lorie Priess, Anu Pushkarna, Sharan Singh, Stacey Holder, Mary Skipper, Supriya Srinivasan, Stacey Uhl, Neeraja Vinjamuri, and Laurie Whiteland .

Best Green Wishes!

Kathy Bean and Lori Bautista
