

GREEN TEAM CLUB MONTHLY RECAPS

2009-2010

May Recap:

Hello Green Team!

Can you believe this is our last recap of the school year? Time really does fly when you're having fun! May was another great month for the Green Team with lots of beautiful plants and blooms growing in the garden and fresh strawberries and lettuce galore! We are lucky to have the Y Kids to share in the tending of our garden over the summer so nothing will be neglected. Don't forget to take a peek at the Green Wall near the back entrance to the library for our newest pictures of this past year's fun activities. We hope you and your child has enjoyed being a part of the Green Team as much as we did. Please stop by our table at walk through registration in the fall and sign up again to participate next year, plans for new and exciting activities are already in the works!

Congratulations to Laurie Whiteland who won the Green Team raffle at the Fairlands Rummage sale! She took home a \$30 gift certificate for Terra Bella organic produce, several vegetable plant starters, a worm composter, and garden accessories. All proceeds went to the technology fund at our school.

And finally, thanks again to all the parents who helped throughout the year to make our special events, well, "special". Each event is only successful because of the parents who support them and in doing so we demonstrate to the children how important and fun going green can be. An additional note of appreciation goes to Mary Skipper who has given us so much of her time and talent into making our Green Wall a beautiful visual recap of every Green Team activity and Mimi Zhang for taking the terrific pictures. And last but not least, our sincere gratitude to Beth Pineda who faithfully empties the recycling bins all year which not only protects our environment but provides funds for our Green Team projects as well.

Have a safe, fun, and green summer- see you all next year!

**Kathy Bean and Lori Bautista
Green Team Co-chairs**
